Alpine, Nordic and Snowboard skiing, including the use of lifts, is a dangerous sport with inherent and other risks. These risks include but are not limited to, variations in snow, steepness and terrain, trail side drop-offs, ice and icy conditions, moguls, rocks, trees and other forms of forest growth or debris (above or below the surface), bare spots, lift towers, utility lines, poles and guy wires, snowmaking equipment and component parts, trail fences and the absence of such fences and other forms of natural or man-made obstacles or other skiers.
